

Great Probability Challenge

Mission 5 Lesson Plan

Lesson Topic:

Challenge Wrap Up

Learning Objectives:

Students will:

- share the coins they used during the challenge
- reflect upon their project experiences
- complete the KWL chart they started at the beginning of the project

Lesson Activities:

1. Students create drawings or take digital photos of the coins they used during the challenge.
2. Teachers upload or help students upload images to the [Showcase](#)
 - Students do not have access to upload images to the Showcase
 - Access for teachers is provided after project registration
3. Students reflect upon their project experiences through the Probability Blog
 - Students answer the Mission 5 discussion prompts
4. Students complete the KWL chart they started at the beginning of the project.
5. Students finish the Student Project Rubric
