Mission 1 Lesson Plan

(Grades 3-6)

Lesson Topic:

Students will understand that information given out online can be used in inappropriate ways and will learn how to take steps to protect their privacy.

Learning Objectives:

Students will:

- understand the dangers of giving out personal information online
- students know the difference between personal and public information
- know how to create safe screen names and passwords
- students know what personal information to avoid in screen and user names

1.   Send students to the Great Probability Challenge Mission 1

2.   Students complete the Mission 1 Tutorial

The tutorial contains the following information:

What is a screen name?

1. Brainstorm a list of personal information with your students.
    - First name
    - Last name
    - Address
    - Phone number
    - Date of birth
    - Age
    - School name
    - Names of family members
    - Credit card information
    - Information about parents and family including work

Passwords need to be:

- at least 8 characters long
- passwords need to be kept private
- use letters, numbers and symbols in passwords to make the safe

Never:

- share your password
- e-mail your password to somebody

- use a password that somebody can guess
- put personal information in your password

3. Students complete the Mission 1 Online test

Answer Key:

Screen Names:

Safe/Not Safe	Screen Name	What information is given out?
1	SuperSkating	Hobby
2	BrendainRedding	First name, location
5	KindYada@abc.net.in	E-mail address
3	SoccerZachary99	favorite hobby, First name, year born
4	SallyHammer12	First name, last name, age
